

Master profession of  
**EYELASH STYLIST**

Master Extension -  
extension and design specialist  
of eyelashes and eyebrows

**You will learn exclusive PSL™ methodology, developed by professionals from team of Anete Steina.**

The aim of future masters of Extension & Design Perfect Silk Lashes™ is to achieve excellence in the theory and gain practical skills. Emphasis is made on specialization in the field of design, extensions and care about eyelashes and eyebrows.

Educational programs are based on the theory and exclusive techniques, created and designed by PSL™ International Eyelash Academy (working since 2001 and has offices throughout Europe), which is focused on the international level of professional education in the field of eyelashes and eyebrows.

Our Training centre has an international team of experienced professionals led by Anete Steina (*PSL™ International Master Lashes Educator*), who developed an innovative authoring techniques as **PSL™ VOLUMINEX SYSTEM™** (a special method of eyelash extensions with *Volume System*), **PSL™ INCRESIUM SYSTEM™** (basic procedure of *One By One System*) and **PSL EYEBROW DENSITY SYSTEM™** (a special method for eyebrow extensions and modeling).

## Master, who leads your company of gaining the status of “PSL™ Certified Center “.

---

At the end of each **Master in Extension & Design PSL™ Module**, a student can apply for getting special PSL Certified Center™ Status for his or her beauty salon which is recognized internationally.

The special status provides support, communications and promotional activities in order to attract customers and

expand the business. As well as it ensures customers in professionalism of beauticians.

Each Master module makes it possible to obtain certification within a single technology. Upon completion of all Master modules, specialist receives the maximum level of recognition.

# The modular training program

---

Training as a **Master in Extension & Design PSL™** Is made of 3 main modules, as well as several additional programs that can be attended separately.

Each module allows you to acquire the necessary skills and techniques, allowing possibility to have your own practice.
